8441- CARE OF INJURED AND ILL PERSONS

M

The Board of Education directs the Superintendent to provide for prompt and appropriate medical attention for pupils, staff members, or visitors who are injured or become ill on school premises or at school sponsored events.

Any injury or illness shall be reported immediately to the school nurse or, in the absence of the school nurse, the building principal, who will determine whether an emergency exists. Immediate steps may be taken as necessary to remove the injured or ill person from imminent danger and/or prevent exacerbation of the disability. Routine first aid will be administered by district personnel as necessary to ensure the safety and comfort of the injured or ill person.

The parent(s) or legal guardian(s) of an injured or ill pupil and, if necessary, the family of an injured or ill staff member or adult visitor will be notified promptly and tactfully of the injury or illness. If the school nurse or school medical inspector or, in the absence of both, the Principal, determines that the injured or ill person should be removed from school for rest and/or treatment at home or for consultation with a private physician, the parent(s) or legal guardian(s), or family member shall be requested to provide transportation.

A team of school district employees shall be assembled by the Principal in each school building and shall be trained and annually retrained in first aid procedures. Both the initial training of first aid team members and annual refresher courses will be at Board expense. The names of the first aid team members will be submitted to the Superintendent and distributed to all employees assigned to the school building. First aid team members shall assist the school nurse and may administer first aid in the absence of the school nurse.

In a serious emergency requiring immediate medical attention, an ambulance may be summoned for transportation to a hospital or the school nurse may drive the injured or ill person to the hospital.

The Superintendent shall, in consultation with the school medical inspector and school nurse, prepare standing orders for the emergency treatment of injuries and disabilities by the

school nurse and regulations for the handling of injured and ill persons by all other school employees. All district personnel will be briefed annually on the regulations governing the handling of injured and ill persons.

Injuries and disabilities that occur in the course of the athletic program are subject to the provisions of Policy No. 2431 and implementing regulations. Pupil disabilities attributable to substance abuse will be handled in accordance with Policy No. 5530. Injuries that occur in the course of school bus transportation will be handled in accordance with regulations implementing Policy No. 8630.
